FOR IMMEDIATE RELEASE — October 31, 2026

UAP America Launches a 24/7 AI-Powered, Human-Led UFO/UAP News Network

"UAP America is your source for UFO, UAP and USO news, 24/7. Every sighting. Every story. One place."

AI-powered. Human-led. UAP America is a new online news and entertainment company covering UFOs, unidentified anomalous phenomena (UAP) and unidentified submerged objects (USO). It's led by CEO & Founder CJ Brown, who appears live in some segments. The anchors and many visuals are AI-generated, and every one is labeled as AI.

WHAT UAP AMERICA DOES

- **Daily news Shorts:** sourced UFO/UAP/USO stories presented by labeled AI anchors, with the source linked.
- **Labeled AI visuals:** real footage first, with any AI reconstruction labeled on screen.
- **Real or Fake?:** viral clips checked against the evidence.
- **Weekend Briefing:** a week-in-review.
- **Coming soon:** a 24/7 stream.

UAP America reports on public records, including DOD and archival releases, and tells viewers what is verified and what isn't.

WHO YOU'RE WATCHING: OUR LABELING POLICY

- **AI, always labeled:** AI anchors, hosts, narrators, voices, staff personas, and AI-generated images and recreations.
- **Real people, never labeled AI:** CJ Brown, live correspondents and field reporters, real anchors and hosts, interview guests and experts, and contributors who send in their own footage. They get on-screen name tags.
- **Stand-ins and actors** are tagged "Reenactment."
- **Mixed videos** are labeled "AI-generated hosts & live segments with [name]."
- UAP America never presents an AI person as a real human, and never presents a real person as AI-made.

> **"UAP America is an AI newsroom with a real person accountable for it. We show the source, label the AI and let you decide," said CJ Brown, CEO & Founder of UAP America.**
